

January 20, 2019

Dear Editor,

On behalf of all co-authors, it is my pleasure to submit the revised version of our manuscript entitled “Microscopic heterogeneity of plastic strain and lattice rotation in partially annealed copper polycrystals” for publication in the special issue of International Journal of Solids and Structures honouring Pr. Dominique Jeulin.

We have done our best to address all comments of the reviewer to whom we are grateful for his/her careful evaluation of the work.

Sincerely,

Laurent Delannay
