CPP

Shared print journal preservation project in the Universities of the French community of Belgium

How to manage our collections of printed journals without being submerged by them?

Fr. Brodtkom, *Library manager, Invited Lecturer*
Library and learning center of sciences and technologies
Université catholique de Louvain (Belgium)

frederic.brodtkom@uclouvain.be

With the help of

M. Bardiau (ULiège)
T. Delbushaye (UCLouvain - Mons)
D. Lerinckx (ULB)

French-speaking universities of Belgium

UNIVERSITÉ CATHOLIQUE DE LOUVAIN
UNIVERSITÉ DE LIÈGE
UNIVERSITÉ LIBRE DE BRUXELLES
UNIVERSITÉ DE MONS
UNIVERSITÉ DE NAMUR
UNIVERSITÉ SAINT-LOUIS BRUXELLES

Working Groups

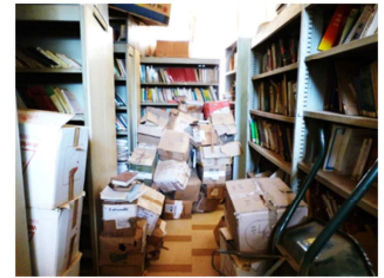

- Statistics
- LibQUAL
- **CPP**
- Safeguard of collections (disaster)
- ...

The main missions of **BICfB** are:

- to participate in the development of a policy, common to the various institutions, for access to electronic documentation;
- to develop cooperation activities between Belgian French-speaking university libraries and, in particular, in the field of electronic documentation, taking care, on the one hand, to satisfy the specific needs of each institution and, on the other hand, to defend their common interests;
- to promote the scientific production of French-speaking universities in Belgium through various projects and studies.

Principles and goals of the CPP

CONSOLIDATE COLLECTIONS AND DISCARD SURPLUSES
(IN OUR 6 UNIVERSITIES) TO KEEP ONLY

ONE COLLECTION (OF CONSERVATION) OF EACH JOURNAL IN PRINTED FORM

AND

A SECOND COLLECTION (OF CONSULTATION) IF THERE IS

NO SUSTAINABLE ELECTRONIC ALTERNATIVE

OR

NOT THE SAME COLLECTION AT THE KBR

4 working groups of the CPP

4/15

People and coordination

Coordination :

Fr. Brodtkom (UCLouvain)

CPP Biblio : Bibliographic and abstract

3 Group leaders :

T. Delbushaye (UCLouvain-Mons)

CPP ECO : Economy and management

M. Bardiau (ULiège)

CPP MED : Health sciences

D. Lerinckx (ULB)

CPP ST : Sciences and technologies

In each group :

1-2 Librarians / university library

Working

1. Each group decides freely how it works and which tools are used to manage their work
2. The final decision (of conservation) engage the hosted library for 10 years before (re)discussion
3. The coordinator has the responsibility
 - a) to prepare – for the BICfB - an **annual report** (2017, 2018, ...) with a unique Excel file showing the gain in meters
 - b) to identify **difficulties** in the advancement of each group and to try to find solutions
 - c) to find the **group leaders** for each group when it's necessary
 - d) to **represent** the CPP at the BICfB or in other instances, conferences, etc.
 - e) to organize a min of 3 **meetings** each year with the group leaders (= *the coordination CPP*)
 - f) to manage and archive the data's of former groups
 - g) to propose and initiate new groups (*next one in 2020*)

Bibliographic and abstract

Consolidation between 2004-2008

with conservation agreements of **466 titles** for 10 years

Revision 2018

- each institution declares the collections it no longer wishes to keep
- any exchanges are carried out if institutions want to take them over
- collections are permanently eliminated if there are alternatives

202 titles have been renewed for 10 next years of conservation (9 of them with a second collection)

Problems :

- *Between 2008 and 2018, 61 collections have been eliminated without concertation (probably by lack of information in the catalog or/and in the shelves, misunderstanding of instructions, ...)*

Economy and management

Consolidation between 2010-2019

- the group has worked with the *Brocade* tool (U. Antwerpen)
- conservation agreements of **422 titles** for 10 years (data end 2018)
- collection that have been thrown away actually : 114 m (end 2018)
- last transfers and disposal operations planned in 2019

Problems :

- *Confusion between the project to work on economics and management and the libraries' contents with other topics as statistics, philosophy, politics ... located in other libraries in other universities with no representation in the group.*

Health sciences (medicine)

Consolidation program since 2010

6 list established

_E = wish not to keep

_C = wish to keep

Nom de fichier	Nbre titres	Statut		
		Décision CR	Vérification de l'état de collection	Transfert et rapport
ULiège_E	286	Fait	Fait	En cours
ULiège_C	57	Fait	En cours	En cours
ULB_E	621	Fait	En cours	En cours
ULB_C	225	Fait	En cours	En cours
UNamur_E	62	Fait	En cours	En cours
UNamur_C	244	Fait	En cours	En cours

Problems :

- complex methodology with too large Excel file and verification of collection records after decision
- lack of time and human resources to manage the collection and lack of vehicle for transfer
- difficulty in "keeping" a leader to manage the group

Sciences and technologies

10/15

Group active since the end of 2017

- methodology based on batches of 20 titles selected in each library on the basis of size criteria (the largest collection first) and with a priority accorded to collections with a sustainable electronic alternative
- analyze and choice in a consensus list of 120 titles : decision and transfer operated directly for the 34 titles
- transfer since Aug. 2018
- total of recovered spaces : 440 m

ST Groupe : result sept-17 > june-19				
Collections in meter				
(M)	Gain due to transferts	Discarded	To discard	Total Gain
UMons	8,0	14,0	227,6	249,6
UNamur	2,3	0,0	108,0	110,3
ULB	-60,9	19,5	3,5	-37,9
ULiège	4,8	0,0	8,3	13,1
UCLouvain	52,0	50,8	2,1	105,0
	6,1	84,3	349,6	440,0

quantity kept in metre

quantity discarded (or potentially discarded) in metres

Titre complet et filiations; refaire chaque fois une ligne pour chaque filiation distincte				Holdings du titre complet	Date du transfert final = début de la conservation ou date de la décision finale si pas encore de transfert	merci de respecter le modèle : v. X.no. Y (année) mettre en tiret entre deux dates avec collection complète, mettre une virgule et reprendre à près un trou dans la collection. Aucun blanc nul part.		en mètre avec des deux décimales					si c'est de l'épénne par exemple	en mètre avec des deux décimales + ce qui est gagné (transféré, jeté ou qui pourrait être jeté), - ce qui est la conservation partagée décidée					

CPP - BICFB

Projects (1)

Make the CPP ST group **methodology** (step by step with limited batches of journals) mandatory for further projects
Initiate 2 new groups in them in 2020, for example

- Psychology and education
- Veterinary sciences
- Sport, motor sciences, physiotherapy
- Law
- Political and social sciences

4 active groups could be sustainable : (CPP BIBLIO)(CPP ECO) CPP MED, CPP ST, ? CPP PSY, ? CPP VET

13/15

Projects (2)

Develop **cooperation** with :

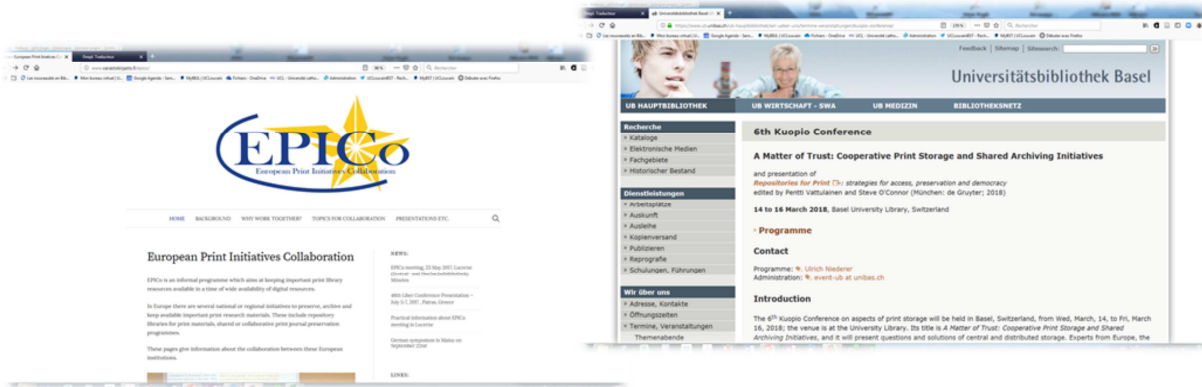

the libraries of Flemish universities (Biomed, BiodIng) ... **here we are !**

the National Library of Belgium (13/12/2018 > **Meeting with Astrid de Spiegelaere**)

the public libraries of the *Fédération Wallonie-Bruxelles et Universités des Hauts-de-France* (12/11/2019 **LILLIAD**)

EPICO (member > **meeting at Basel 15/03/2019**) > **Kuopio Conference 2020 Vienna**)

Africa Museum, Botanical garden (Meise), IRSNB-KBIN, ?

CPP - BICFB

Projects (3) ... let's conclude with a dream !

Make the project an example **that shared conservation is possible and... inevitable:**

- for the libraries in order to gain (real) support in term of motivation and than in term of human resources
- to justify further **priorities** for the Universities and beyond: construction of shared storage spaces of high-density

86
Kooperative Speicherbibliothek
Schweiz (Cooperative
Storage Facility Switzerland).
Büron, Switzerland

1st module (on 3) :
3,100,100 volumes

15/15
