|--|-----------|
| Table of contents | <i>i</i> |
| Abbreviations, symbols and conventions | <i>v</i> |
| General introduction | 1 |
| 1. The Boom Clay | 3 |
| 1.1 Location | 4 |
| 1.2 Stratigraphy | 5 |
| 1.3 Lithology | 6 |
| 1.4 Mineralogy..... | 8 |
| 1.4.1 Clay mineralogy | 9 |
| 1.4.2 Non-clay mineralogy..... | 10 |
| 1.4.3 Authigenic minerals | 11 |
| 1.4.4 Biogenic minerals..... | 15 |
| 1.5 Granulometry..... | 15 |
| 1.6 Geochemistry..... | 16 |
| 1.6.1 Solid phase | 16 |
| 1.6.2 Liquid phase | 17 |
| 1.7 Organic matter | 20 |
| 1.7.1 Insoluble organic matter..... | 20 |
| 1.7.2 Soluble organic matter | 21 |
| 1.8 References | 22 |
| 2. Disposal of spent nuclear fuel: uranium as main radionuclide | 25 |
| 2.1 Disposal of spent nuclear fuel in deep geological formations..... | 26 |
| 2.2 The Boom Clay as a candidate host formation..... | 26 |
| 2.3 Critical radionuclides for the disposal of spent fuel | 28 |
| 2.4 Uranium geochemistry | 30 |
| 2.4.1 General behaviour | 30 |
| 2.4.2 Behaviour in the Boom Clay | 31 |
| 2.5 Conclusion..... | 37 |
| 2.6 References | 38 |
| 3. Naturally occurring uranium in the Boom Clay | 41 |
| 3.1 Introduction | 42 |
| 3.2 Concentration of natural uranium in Boom Clay pore water | 42 |
| 3.3 Concentration profile of natural uranium in the Boom Clay..... | 43 |
| 3.4 Mobility of natural uranium in the Boom Clay | 43 |

| | |
|--|-----------|
| 3.5 Uranium content in Boom Clay minerals | 44 |
| 3.5.1 Literature review | 44 |
| 3.5.2 Samples preparation | 45 |
| 3.5.3 Results | 49 |
| 3.6 Conclusion | 55 |
| 3.7 References | 56 |
| 4. Experimental conditions | 57 |
| 4.1 Introduction | 58 |
| 4.2 Anaerobic glove boxes | 59 |
| 4.3 Boom Clay water | 60 |
| 4.3.1 Boom Clay water..... | 60 |
| 4.3.2 Synthetic Boom Clay water..... | 61 |
| 4.4 References | 64 |
| 5. Complexation of U(VI) by humic acids | 65 |
| 5.1 Introduction | 67 |
| 5.1.1 Metal complexation by humic acids..... | 67 |
| 5.1.2 State of the art on the complexation of U(VI) by humic acids | 69 |
| 5.1.3 Uranium interaction with humic acids under Boom Clay conditions . | 70 |
| 5.2 Experimental..... | 71 |
| 5.2.1 Concentration and purification of humic acids | 71 |
| 5.2.2 Preparation of humic acids mother solutions | 72 |
| 5.2.3 Parameters studied in the complexation experiments | 72 |
| 5.2.4 Dialysis technique | 73 |
| 5.3 Results | 78 |
| 5.3.1 Intrinsic problems of the dialysis technique..... | 78 |
| 5.3.2 Redox stability..... | 79 |
| 5.3.3 Determination of humic acids concentration..... | 79 |
| 5.3.4 Fraction of U(VI) complexed by humic acids..... | 80 |
| 5.4 Determination of conditional complexation constant..... | 84 |
| 5.4.1 Evaluation of the conditional complexation constant | 84 |
| 5.4.2 Discussion | 88 |
| 5.4.3 Mixed complexes formation of U(VI) with HA and carbonate | 89 |
| 5.4.4 Conclusion..... | 93 |
| 5.5 Extended x-ray absorption fine-structure spectroscopy | 94 |
| 5.5.1 Principle | 94 |
| 5.5.2 Samples | 95 |
| 5.5.3 Experimental conditions..... | 96 |
| 5.5.4 Results | 96 |
| 5.6 Conclusions | 99 |
| 5.7 References | 100 |

| | |
|--|------------|
| 6. Solubility of UO₂(am) | 103 |
| 6.1 Introduction | 104 |
| 6.1.1 State of the art on the solubility of amorphous UO ₂ | 104 |
| 6.1.2 Solubility calculations of amorphous UO ₂ in Boom Clay | 106 |
| 6.2 Time evolution of the solubility of amorphous U(IV) precipitate..... | 107 |
| 6.2.1 Experimental | 107 |
| 6.2.2 Results | 110 |
| 6.2.3 Discussion | 114 |
| 6.3 Influence of organic matter on the solubility of amorphous UO ₂ | 116 |
| 6.3.1 Experimental | 116 |
| 6.3.2 Results | 119 |
| 6.3.3 Discussion | 134 |
| 6.4 Conclusions | 137 |
| 6.5 References | 138 |
| 7. Sorption of uranium | 141 |
| 7.1 Introduction | 142 |
| 7.2 Sorption of U(VI) on pyrite | 143 |
| 7.2.1 Experimental | 143 |
| 7.2.2 Results | 145 |
| 7.2.3 Discussion | 150 |
| 7.2.4 Micro-x-ray absorption near edge spectroscopy | 151 |
| 7.3 U(IV) sorption on various pure minerals..... | 153 |
| 7.3.1 Experimental | 153 |
| 7.3.2 Results and discussion..... | 155 |
| 7.4 Conclusion..... | 161 |
| 7.5 References | 162 |
| General conclusions | 167 |
| Appendices | |
| Appendix 1: Water composition | |
| Appendix 2: Raw data | |
| Appendix 3: Electrochemical reduction of U(VI) | |
| Appendix 4: Minerals characterisation for sorption experiments | |
