

Corrigendum to “Inter-domain tagging implicates caveolin-1 in insulin receptor trafficking and Erk signaling bias in pancreatic beta-cells” [Mol Metab 2016 May; 5 (5): 366–378]

Tobias Boothe¹, Gareth E. Lim¹, Haoning Cen¹, Søs Skovsø¹, Micah Piske¹, Shu Nan Li¹, Ivan R. Nabi¹, Patrick Gilon², James D. Johnson^{1,*}

The authors regret to inform the community that it has come to our attention that the plasmid that was used in Figure 2C that we thought was TagBFP-Rab7 is actually TagBFP-Rab7L. Fortunately, the fluorescent protein imaging was complemented with antibody staining of endogenous Rab7 so we do not think this changes our main conclusions significantly. The authors would like to apologise for any inconvenience caused.
