2- Cliniques Universitaires Saint-Luc Brussels, Belgium

Location:

Louvain House

Traverse Comte Yves du Monceau (ex Terrasse de l'Aula)

1348 Louvain-la-Neuve

BELGIAN HAND GROUP SPRING CONGRESS:

Dear Friends & colleagues,

We are delighted to invite you to the upcoming Spring congress of the Belgian hand group on Upper limb Nerve Lesion, which will take place on 01th June 23 in the beautiful Louvain House (Louvain La Neuve).

Why a Thursday evening?

World is changing!

Holding a congress on a Thursday evening is we hope a great way to improve the respect of the private life of attendees. By scheduling the event in the evening, it allows individuals to attend after their regular work hours and minimizes the impact on their personal time. Additionally, holding the congress on a weeknight rather than a weekend means that people are less likely to have prior commitments such as family activities or weekend plans.

Overall, holding a congress on a Thursday evening is a considerate and practical way to ensure that we can increase the attendees especially in the young generation. By taking into account the demands of work and personal schedules, we hope that it helps to create a more inclusive and accommodating environment for all participants and given new prospects for scientific society .

The congress is dedicated to exploring the latest advances in peripheral nerve lesion diagnosis, treatment and rehabilitation. Our goal is to bring together surgeons & physiotherapists to exchange ideas, share their experiences and foster collaboration between each of us.

The program includes a series of keynote speeches and panel discussions, as well as opportunities for networking and interactive sessions. The topics covered in the congress will be of great interest to anyone working in the fields of hand/upper limb surgery, rehabilitation, and related disciplines.

We are confident that you will find the congress to be an inspiring and thought-provoking experience, and we look forward to welcoming you in Louvain la Neuve.

The program is still under construction.

We will conclude by enjoying a music entertained reception with walking dinner.

Accreditation will be requested for the meeting.

We hope to see you there!

Best regards,

Pr. Olivier BARBIER & Pr. Ilse DEGREEF & Pr. Xavier LIBOUTON

Organizing Committee of the Upper Limb Nerve Lesion Congress

PRELIMINARY PROGRAM:

17.30 - 18:00: Registration and visit Exhibitors

Session 1: *Chair Ilse Degreef & Xavier Libouton*

18.00 - 18.10: Welcome
