Adapter sans réinventer : défis et enjeux de la mise à l'échelle des innovations démocratiques

Camille Dobler (Missions Publiques)

Jacob Birkenhäger (Nexus Institute)

Stefano Camatarri (Catholic University of Louvain & Catholic University of Lille)

Jehan Bottin, Pieter Velghe (Catholic University of Louvain)

Funded by
the European Union

Outline

- *Introduction*
- *What is SCALED*
- *Foundations for an Analytical Framework*
- *Interactive Exercise*
- *Take-aways and Discussion*

Breaking the ice

- *Have you have heard of ‘Scaling’ Democratic Innovations before?*
- *When you hear ‘Scaling Democratic Innovations,’ what comes to mind?*

What is SCALEDDEM?

An **EU-funded (Horizon Europe) initiative** bringing together **think tankers, researchers, practitioners** and **science communicators**, dedicated to scale solutions that strengthen democratic processes.

Rather than duplicating these efforts, we are building on the work of **previous and ongoing R&I projects**....

....and go further to scale them in **new operational contexts**.

Final Takeaways and Discussion

Open Discussion:

- What insights from today's discussions were most surprising?
- What will you take back to your work?

Coming your way soon...

- Twinning Programme, to test scalability of Dis (from practice to practice)
- Pilot Programme, to test feasibility of scalable Dis (from theory to practice)
