Introduction 1
Roy Homburg, Robert F. Casper and Adam H. Balen

Section I Limits for IVF

1A **Female Age 42 Years Should Be the Upper Limit for Conventional IVF/ICSI Treatment: For** 2
Jane A Stewart

1B **Female Age 42 Years Should Be the Upper Limit for Conventional IVF/ICSI Treatment: Against** 5
Tim Child

2A **Women with a BMI over 40 Should Be Refused Fertility Treatment: For** 8
José Bellver

2B **Women with a BMI over 40 Should Be Refused Fertility Treatment: Against** 11
Richard S Legro

3A **Female Age of Menopause Is a Fair Limit for Ovum Donation: For** 15
Melanie Davies

3B **Female Age of Menopause Is a Fair Limit for Ovum Donation: Against** 17
Gillian Lockwood

4A **Social Egg Freezing Should Be Available Up To the Age of 40 Years: For** 19
Ana Cobo

4B **Social Egg Freezing Should Be Available Up To the Age of 40 Years: Against** 22
Kylie Baldwin

Section II IVF Add-ons

5A **DHEA Is an Effective Treatment for Poor Responders: For** 24
Catherine Hayden and Mariano Mascarenhas

5B **DHEA Is an Effective Treatment for Poor Responders: Against** 26
Mostafa Metwally

6A **The Addition of LH/hCG to FSH Improves IVF Outcome: For** 29
Claus Yding Andersen

6B **The Addition of LH/hCG to FSH Improves IVF Outcome: Against** 32
Juan-Enrique Schwarze

7A **Acupuncture Is a Useful Adjuvant for Fertility Treatment: For** 35
Elisabet Stener-Victorin

7B **Acupuncture Is a Useful Adjuvant for Fertility Treatment: Against** 37
Isla Robertson and Ying Cheong

8A **There Is a Role for Pre-conceptional Treatment with CoQ10: For** 40
Grace Dugdale

More Information

8B **There Is a Role for Pre-conceptional Treatment with CoQ10: Against** 44
Roger J Hart

9A **There Is a Role for Pre-conceptional Treatment with Vitamin D: For** 46
Justin Chu

9B **There Is a Role for Pre-conceptional Treatment with Vitamin D: Against** 49
Amit Shah

10A **Natural Killer Cell Assay in the Blood Is a Useless Investigation: For** 51
Ingrid Granne

10B **Natural Killer Cell Assay in the Blood Is a Useless Investigation: Against** 53
Kevin Marron

11A **Intralipid Therapy Has a Place in Infertility Treatment: For** 56
Hassan Shehata

11B **Intralipid Therapy Has a Place in Infertility Treatment: Against** 59
Ephia Yasmin

12A **The Endometrial Scratch Has Had Its Day: For** 62
Sarah Lensen

12B **The Endometrial Scratch Has Had Its Day: Against** 65
Nick Macklon

13A **Corticosteroid Therapy Is Useful in Assisting Implantation: For** 68
Harish M Bhandari

13B **Corticosteroid Therapy Is Useful in Assisting Implantation: Against** 71
Cecilia Petriglia and Filippo Maria Ubaldi

Section III The Best Policy

14A **IVF Should Be First-Line Treatment for Unexplained Infertility of Two Years Duration: For** 74
Tim Child

14B **IVF Should Be First-Line Treatment for Unexplained Infertility of Two Years Duration: Against** 76
Gulam Bahadur

15A **Single-Embryo Transfer Should Be Performed in All IVF Cycles: For** 79
Mark Hamilton

15B **Single-Embryo Transfer Should Be Performed in All IVF Cycles: Against** 82
Lewis Nancarrow

16A **The Freezing of All Embryos Should Be Used for All IVF Cycles: For** 84
Matheus Roque

16B **The Freezing of All Embryos Should Be Used for All IVF Cycles: Against** 87
Mark Bowman

17A **Luteal-Phase Support Should Be Stopped at the Time of a Positive Pregnancy Test: For** 90
Juan A Garcia-Velasco

17B **Luteal-Phase Support Should Be Stopped at the Time of a Positive Pregnancy Test: Against** 93
Ariel Weissman

18A **A Natural Cycle Is the Best Protocol for Frozen Embryo Replacement: For** 96
Raoul Orvieto

18B **A Natural Cycle Is the Best Protocol for Frozen Embryo Replacement: Against** 99
Ben Cohlen

Table of Contents
More Information

19A **All Pregnancies Conceived by IVF Should Be Delivered by Caesarean Section: For** 101
James Hopkisson

19B **All Pregnancies Conceived by IVF Should Be Delivered by Caesarean Section: Against** 103
Claudia Raperport

20A **Endometriosis Should Be Suppressed for 6–12 Weeks before Frozen Embryo Transfer: For** 106
Hassan N Sallam

20B **Endometriosis Should Be Suppressed for 6–12 Weeks before Frozen Embryo Transfer: Against** 109
Tom Gunnar Tanbo

21A **Infertile Patients with Endometriosis Benefit From Surgery: For** 111
Stephan Gordts

21B **Infertile Patients with Endometriosis Benefit from Surgery: Against** 114
Mathew Leonardi

22A **Intramural Fibroids Greater than 4 cm in Diameter Should Be Removed to Aid Fertility: For** 117
Jacques Donnez and Marie-Madeleine Dolmans

22B **Intramural Fibroids Greater than 4 cm in Diameter Should Be Removed to Aid Fertility: Against** 120
Mostafa Metwally

23A **All Infertile Women with a Uterine Septum Should Have a Surgical Removal: For** 122
Matt Prior and Nicholas Raine-Fenning

23B **All Infertile Women with a Uterine Septum Should Have a Surgical Removal: Against** 124
Fulco van der Veen

Section IV Embryology

24A **ICSI Should Be Used for All IVF Cycles: For** 126
John Yovich

24B **ICSI Should Be Used for All IVF Cycles: Against** 128
Bryan Woodward

25A **Embryo Morphokinetic Analysis (Time-Lapse Imaging) Is Helpful in Selecting Euploid Blastocysts: For** 131
Zev Rosenwaks

25B **Embryo Morphokinetic Analysis (Time-Lapse Imaging) Is Helpful in Selecting Euploid Blastocysts: Against** 134
Christine Leary

26A **Time-Lapse Imaging Should Be a Routine Procedure in Clinical Embryology: For** 138
William Ledger

26B **Time-Lapse Imaging Should Be a Routine Procedure in Clinical Embryology: Against** 140
Virginia N Bolton

27A **Artificial Intelligence Is Useful for Embryo Selection in IVF: For** 142
Rachel Smith

27B **Artificial Intelligence Is Useful for Embryo Selection in IVF: Against** 145
Lucy Wood and Helen Clarke

Table of Contents
More Information

28A **There Is No Need to Take Embryos Out of the Incubator until the Day of Embryo Transfer: For** 147
Karen Thompson

28B **There Is No Need to Take Embryos Out of the Incubator until the Day of Embryo Transfer: Against** 149
Catherine Pretty

29A **Blastocyst Culture Should Be a Routine in All IVF Cycles: For** 151
Louise Kellam

29B **Blastocyst Culture Should Be a Routine in All IVF Cycles: Against** 153
Jason Kasraie

Section V Ethics and Statistics

30A **Sex Selection Should Be Permitted for Family Balancing: For** 156
Jigal Haas

30B **Sex Selection Should Be Permitted for Family Balancing: Against** 158
Shirley Eve Levitan

31A **Reproductive Medicine Should Be Publicly Funded: For** 160
Jeff Nisker

31B **Reproductive Medicine Should Be Publicly Funded: Against** 163
William D Schlaff

32A **Gamete Donation Should Be Anonymous: For** 165
Guido Pennings

32B **Gamete Donation Should Be Anonymous: Against** 167
Carl Laskin

33A **Uterus Transplantation Is a Step Too Far: For** 169
Francoise Shenfield

33B **Uterus Transplantation Is a Step Too Far: Against** 171
Mats Brännström

34A **Meta-analysis Should Not Be Considered Class A Evidence: For** 173
A Albert Yuzpe

34B **Meta-analysis Should Not Be Considered Class A Evidence: Against** 175
William Buckett

Section VI Male-factor Infertility

35A **Sperm Counts Are Falling Worldwide: For** 179
Garima Srivastava

35B **Sperm Counts Are Falling Worldwide: Against** 181
Allan Pacey

36A **There Is Value in Examining Sperm DNA Fragmentation: For** 183
Lesley Haddock and Sheena EM Lewis

36B **There Is Value in Examining Sperm DNA Fragmentation: Against** 186
Armand Zini and Wael Almajed

37A **Testicular Sperm Should Be Considered for Repeated ICSI Failed Implantation Cases in Men with High Sperm DNA Damage: For** 189
Lesley Haddock and Sheena EM Lewis

37B **Testicular Sperm Should Be Considered for Repeated ICSI Failed Implantation Cases in Men with High Sperm DNA Damage: Against** 191
Ashok Agarwal

More Information

Section VII Genetics

38A **Genome Editing Should Be Allowed for the Prevention of Life-Threatening Genetic Diseases: For** 194
Kevin Smith

38B **Genome Editing Should Be Allowed for the Prevention of Life-Threatening Genetic Diseases: Against** 197
Kirsten Riggan and Megan Allyse

39A **PGT-A Should Be Offered for Recurrent Implantation Failure: For** 200
Gon Shoham and Zeev Shoham

39B **PGT-A Should Be Offered for Recurrent Implantation Failure: Against** 202
N Ellissa Baskind

40A **PGT-A Should Be Offered for All Women: For** 205
Elizabeth Burt

40B **PGT-A Should Be Offered for All Women: Against** 207
Susan P Willman

Section VIII Ovarian Stimulation

41A **AMH Is a Better Predictor of Ovarian Response Than AFC: For** 210
Antonio La Marca and Valentina Grisendi

41B **AMH Is a Better Predictor of Ovarian Response Than AFC: Against** 212
Frank Broekmans

42A **Pituitary Suppression Using GnRH Agonist for IVF Is Outdated: For** 216
Efstratios Kolibianakis

42B **Pituitary Suppression Using GnRH Agonist for IVF Is Outdated: Against** 219
Cornelis B Lambalk

43A **The Maximum Effective Dose of FSH for Ovarian Stimulation in IVF Is 300 IU: For** 222
Sarah Lensen

43B **The Maximum Effective Dose of FSH for Ovarian Stimulation in IVF Is 300 IU: Against** 225
Georgios Lainas

44A **There Is No Place for Natural and Mild Stimulation IVF: For** 228
Raj Mathur

44B **There Is No Place for Natural and Mild Stimulation IVF: Against** 230
Ippokratis Sarris

Section IX Hormones and the Environment

45A **Metformin Is an Effective Treatment for Infertility Associated with Anovulatory PCOS: For** 235
Stefano Palomba

45B **Metformin Is an Effective Treatment for Infertility Associated with Anovulatory PCOS: Against** 237
Arnold M Mahesan

46A **Laparoscopic Ovarian Drilling Should Be Performed for CC-Resistant PCOS: For** 239
Ellen Greenblatt

46B **Laparoscopic Ovarian Drilling Should Be Performed for CC-Resistant PCOS: Against** 242
Madelon van Wely

More Information

47A **Asymptomatic Polycystic Ultrasound Appearance of the Ovary Is Favourable for IVF Outcome: For** 244
Julio Ricardo Loret De Mola

47B **Asymptomatic Polycystic Ultrasound Appearance of the Ovary Is Favourable for IVF Outcome: Against** 247
Lisa Webber

48A **Ultrasound Monitoring Is Not Required for Letrozole Treatment: For** 249
Ahmed Badawy

48B **Ultrasound Monitoring Is Not Required for Letrozole Treatment: Against** 251
Mohamed F Mitwally

49A **Progesterone Levels Should Be Measured On the Day of hCG Administration: For** 254
Ernesto Bosch

49B **Progesterone Levels Should Be Measured On the Day of hCG Administration: Against** 257
Alan Penzias

50A **Progesterone Treatment Does Not Help Recurrent Miscarriage Patients: For** 259
Raj Rai

50B **Progesterone Treatment Does Not Help Recurrent Miscarriage Patients: Against** 261
Arri Coomarasamy

51A **The Microbiome Environment Influences IVF Results: For** 265
Sam Schoenmakers and Joop Laven

51B **The Microbiome Environment Influences IVF Results: Against** 268
Peter Humaidan
