Welcome Address

Dear Colleagues,

On behalf of the International Federation of Fertility Societies (IFFS), we are pleased to welcome you to the **2023 IFFS World Congress, September 10-13, 2023, in Athens, Greece**. We will meet - in person - at the Megaron International Conference Centre, in the shadow of the Parthenon, and our gracious local hosts of the Hellenic Fertility and Sterility Society will welcome us all.

The IFFS World Congress provides a unique platform for attendees to convene, learn and discuss current advances in reproductive health, access to fertility care, and reproductive rights across the globe, and engage the patient perspective. **The theme of the 2023 IFFS World Congress is "Exploring New Horizons in Fertility Care"**. Keynote lectures, panels, and our signature trilogy sessions will focus on innovations in male and female infertility, ART, clinical embryology, reproductive genetics, cross-border and third-party reproduction, endometriosis, adenomyosis, fibroids, endoscopic surgery, contraception, gynecological imaging, reproductive environmental health, menopause, and the patient perspective. Renowned international faculty will engage attendees, while free communications and poster sessions offer an opportunity to share cutting edge research and explore new ideas.

IFFS, founded in 1951 as the International Fertility Association (IFA), was formally chartered in 1968. For the past fifty plus years, the World Congress has been a destination for education, science and networking for professionals in the field of global reproductive healthcare. We have distinguished ourselves and are committed to accomplish our core mission: emphasize cutting edge basic and translational science; provide education to practitioners globally; promote high standards of care and advocacy for patients; and engage patients in their journeys in fertility and infertility care. Networking with colleagues and patients is a crucial element of the IFFS World Congress, particularly after we have all spent so much time in virtual environments during the COVID-19 pandemic.

Athens is a hub of assisted reproductive technologies. Greece has 48 licensed ART Centres, most in Athens, 11 in the public sector (in all University Medical Schools, in an NHS Hospital and in the Naval Hospital of Athens) and 37 in the private sector. Greece has become a hub for cross-border reproductive care, due to its liberal legal framework and particularly the application of gamete donation and surrogacy in a well-regulated process. Furthermore, Greece has top quality researchers in the field of ART who have contributed significantly to the global literature, as well as leading endoscopic surgeons who perform the most demanding endoscopic procedures.

So, join us in beautiful and historic Athens, Greece – where Aphrodite, the goddess of fertility, will be ever present with us all, as we focus together on reproductive health and rights for women and men across the globe!

VENUE LOCATION & TRANSPORT

MAICC is situated right in the heart of Athens and is easily accessible by metro, bus and trolley bus. It is also located at a walking distance from major and smaller hotels. Commuting to and from the city centre and the Athens International Airport or other locations is quite easy: 30 min. from the Athens international Airport, 3-5 min. from the city centre.
For more information about MAICC please visit: www.maicc.gr

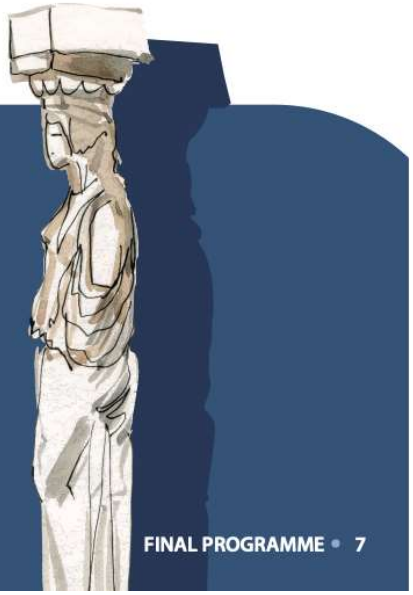

By Metro: There is direct access from the airport and the city centre to MAICC from the metro station "Megaron Moussikis" on metro line 3 (blue line).
Please visit the Athens Metro website for detailed information at www.ametro.gr

By Bus: The following buses, express buses and trolley buses pass and stop near the MAICC:

- Buses: 550, A5, E14
- Express Buses: X95 (direct airport line), X14
- Cable "Trolley" Buses: 3, 10

For more information about the public transportation network in Athens please visit: www.oasa.gr

From the airport: Athens International Airport "Eleftherios Venizelos" is located in Spata, 33 km southeast of Athens and serves all international and domestic flights. The airport is easily accessible from MAICC and the city centre via motorway, express bus or metro. An average journey by taxi from the airport to the city centre should take approximately 40-50 minutes, depending on traffic. The express bus line X95 (direction Syntagma) serves Athens city centre. A ticket for the airport express line costs €5,50. It allows unlimited travel by all public transport means (incl. bus and metro) for 24 hours from the time of validation. The metro line 3 runs every 30 minutes from the airport and the trip to the city centre takes approximately 40 minutes and costs €9.
For more information about the Athens International Airport please visit: www.aia.gr
