

STATE OF THE ART OF TRAPEZIOMETACARPAL ARTHRITIS

Programme

08:15 - Connect to the livestream

08:25 - Welcome message - Anne Lejeune

08:30 - Anatomy Imagery Biomechanics

Moderator: Bruno Lussiez

- 08:30: TMC joint anatomy - J. Duerinckx
- 08:38: Ligament, stability of TMC - F. Stockmans
- 08:46: Morphological modifications of the 1st metacarpal in TMC arthritis - K. Bruynseels
- 08:54: Relevance of the radiology in the evaluation of the degenerative trapezio-metacarpal osteoarthritis - E. Moest
- 09:02: A radiological classification of CMC arthritis for the surgeons - J. Teissier
- 09:10: Biomechanics of the thumb. MP hyperextension in TMC arthritis - P. Ledoux
- 09:18: Do trapeziometacarpal prosthesis provide better metacarpophalangeal stability than trapeziectomy and ligamentoplasty? - B. Degeorge, L. Dagneaux, C. Lazerges, B. Coulet, M. Chammas
- 09:26: Q&A

09:30 - Results Complications

Moderator: Pascal Ledoux

- 09:30: Trapeziometacarpal total joint replacement as an alternative to trapeziectomy depends on trapezium height: Retrospective study of 67 patients - B. Decot, X. Libouton, O. Barbier
- 09:38: Long-term survival of « ball and socket » trapeziometacarpal prosthesis for osteoarthritis - L. Chiche, P.E. Chammas, G. Buljze, B. Coulet, C. Lazerges, M. Chammas

Speakers

P. Bellemere
S. Bogaert
J.-P. Brutus
K. Bruynseels
M. Chammas
L. Chiche
C. Couturier
B. Decot
B. Degeorge
I. Degreef
J. Duerinckx
J. Goubau
N. Hollevoet
P. Ledoux
A. Lejeune
B. Lussiez
G. Menu
E. Moest
F. Mounghondo
F. Stockmans
J. Teissier
I. Tuzi
L. Van Overstraeten

- 09.46: Capsular release – J. Duerinckx
- 09.54: Why I use total thumb CMC joint arthroplasty – B. Lussiez
- 10.02: Complications of the TMC prosthesis – A. Lejeune, N. Chahidi, K. Drossos, N. Cuyllits, P. Van Hoonacker
- 10.10: Ivory arthroplasty for TMC arthritis in men: Analysis of clinical outcome and implants survival – B. Vanmierlo
- 10.18: Revision of TM prostheses by implant replacement – P. Ledoux
- 10.26: The use of tendon allografts to treat osteoarthritis of the trapeziometacarpal joint. Indications and results – N. Hollevoet
- 10.34: Arthroscopically assisted Eaton-Littler trapeziometacarpal ligamentoplasty – F. Mounongo, A. Gkotsi, L. Van Overstraeten, E. Camus, F. Schuind
- 10.42: Arthroscopic Partial Trapezectomy with suspension by External Fixator versus mini Tight Rope – F. Mounongo, L. Van Overstraeten, V. Micklelet, F. Schuind
- 10.50: Pyrocardan implant for basal thumb surgery: my experience – P. Bellemere
- 10.58: Q&A

11.05 – Break and presentation of the sponsors

11.20 – TMC arthritis in young people

Moderator: Joris Duerinckx

- 11.20: Osteotomies around the thumb base: Indications from pathology to sequelae of trauma – J. Goubau
- 11.28: TMC prosthesis by young patients – B. Lussiez
- 11.36: TMC denervation – L. Van Overstraeten
- 11.44: Q&A

11.50 – Pantrapezial arthritis

Moderator: Nader Chahidi

- 11.50: Combined Treatment of Wrist and Trapeziometacarpal Joint Arthritis – M. Chammas, T. Waitzenegger, C. Leclercq, E. Masmejean, H. Lenoir, A. Harir, B. Coulet
- 11.58: Peritrapezium arthritis treated by trapezio metacarpal prosthesis : outcomes and radiological results – G. Menu, S. Zamour, F. Loisel, S. El Rifai, D. Lepage, L. Obert
- 12.06: Double arthroplasty in one stage of the Trapeziometacarpal joint and the STT joint – C. Couturier
- 12.14: P2 – I. Tuzi, N. Chahidi, K. Drossos, N. Cuyllits, P. Van Hoonacker, A. Lejeune
- 12.22: Reg Joint – S. Bogaert, N. Chahidi, K. Drossos, N. Cuyllits, P. Van Hoonacker, A. Lejeune
- 12.30: Is there still a place for trapeziectomy? – I. Degreef
- 12.38: Q&A

12.45 – Walant

Moderator: Nader Chahidi

- 12.45: Joint replacement for arthritis of the basal joint of the thumb under Walant – J.P. Brutus
- Q&A

13.00 – End of the Congress
