Vision Sciences Society Annual Meeting Abstract July 2025

Orientation tuning of face processing in human V1 OPEN ACCESSMrittika Dey; Jolien P Schuurmans; Valerie **Goffaux***Journal of Vision*. 2025; 25(9):2396. <https://doi.org/10.1167/jov.25.9.2396>

Vision Sciences Society Annual Meeting Abstract July 2025

Face-selective brain regions share the visual-field anisotropies of early visual cortex OPEN ACCESSJohn A. Greenwood; Anisa Y. Morsi; Hugo T. Chow-Wing-Bom; D. Samuel Schwarzkopf; Valérie **Goffaux**; Tessa M. Dekker*Journal of Vision*. 2025; 25(9):2216. <https://doi.org/10.1167/jov.25.9.2216>

Vision Sciences Society Annual Meeting Abstract December 2022

V1 contribution to contextual modulation in simple and complex stimuli OPEN ACCESSMehmet Umut Canoluk; Pieter Moors; Valerie **Goffaux***Journal of Vision*. 2022; 22(14):4173. <https://doi.org/10.1167/jov.22.14.4173>

Vision Sciences Society Annual Meeting Abstract December 2022

Coarse-to-fine processing of faces in the core face network and V1. OPEN ACCESSJolien Schuurmans; Matthew Bennett; Valérie **Goffaux***Journal of Vision*. 2022; 22(14):4045. <https://doi.org/10.1167/jov.22.14.4045>

Vision Sciences Society Annual Meeting Abstract September 2021

Coarse-to-fine processing of faces throughout the ventral visual hierarchy. OPEN ACCESSJolien P. Schuurmans; Matthew Bennett; Valérie **Goffaux***Journal of Vision*. 2021; 21(9):2651. <https://doi.org/10.1167/jov.21.9.2651>

Vision Sciences Society Annual Meeting Abstract September 2021

Information redundancy across spatial scales modulates early visual cortex responses OPEN ACCESS

Kirsten Petras; Sanne Ten Oever; Sarang S. Dalal; Valerie **Goffaux**

Journal of Vision. 2021; 21(9):2526. <https://doi.org/10.1167/jov.21.9.2526>

Vision Sciences Society Annual Meeting Abstract September 2021

Contextual modulations in high-level vision are partly accounted for by low-level mechanisms OPEN ACCESS

Mehmet Umut Canoluk; Pieter Moors; Valerie **Goffaux**

Journal of Vision. 2021; 21(9):2506. <https://doi.org/10.1167/jov.21.9.2506>

Vision Sciences Society Annual Meeting Abstract September 2021

Untangling human face identity based on horizontal information OPEN ACCESS

H Dumont; A Roux-Sibilon; C Jacobs; V **Goffaux**

Journal of Vision. 2021; 21(9):2774. <https://doi.org/10.1167/jov.21.9.2774>

Vision Sciences Society Annual Meeting Abstract September 2021

Investigating the role of orientation information in face processing within a spiking neural network OPEN ACCESS

Matthew Bennett; Tushar Chauhan; Benoît Cottureau; Valerie **Goffaux**

Journal of Vision. 2021; 21(9):2766. <https://doi.org/10.1167/jov.21.9.2766>

Vision Sciences Society Annual Meeting Abstract September 2021

Radial biases influence face identification in the periphery OPEN ACCESS

Alexia Roux-Sibilon; Carole Peyrin; John, A. Greenwood; Valérie **Goffaux**

Journal of Vision. 2021; 21(9):2594. <https://doi.org/10.1167/jov.21.9.2594>

Vision Sciences Society Annual Meeting Abstract October 2020

Variations in the perception of facial gender across the visual field OPEN ACCESS

Annie Morsi; Valerie **Goffaux**; John, A. Greenwood

Journal of Vision. 2020; 20(11):791. <https://doi.org/10.1167/jov.20.11.791>

Vision Sciences Society Annual Meeting Abstract September 2019

Spatial frequency tuning of single-glance familiar face recognition in a dynamic visual stream OPEN ACCESS

Xiaoqian Yan; Valérie **Goffaux**; Bruno Rossion

Journal of Vision. 2019; 19(10):92a. <https://doi.org/10.1167/19.10.92a>

Vision Sciences Society Annual Meeting Abstract September 2018

High-level image structure modulates low-level orientation sensitivity OPEN ACCESS

Christianne Jacobs; Charlotte Raskopf; Kirsten Petras; Valerie **Goffaux**

Journal of Vision. 2018; 18(10):748. <https://doi.org/10.1167/18.10.748>

Vision Sciences Society Annual Meeting Abstract September 2018

Multivariate classification of EEG data reveals spatial frequency dominance patterns during broad band image processing

OPEN ACCESS

Kirsten Petras; Christianne Jacobs; Sanne Ten Oever; Valerie **Goffaux**

Journal of Vision. 2018; 18(10):1082. <https://doi.org/10.1167/18.10.1082>

Vision Sciences Society Annual Meeting Abstract September 2018

Face gaze and identity are rooted in independent orientation ranges

OPEN ACCESS

Valerie **Goffaux**

Journal of Vision. 2018; 18(10):1330. <https://doi.org/10.1167/18.10.1330>

Vision Sciences Society Annual Meeting Abstract August 2017

Coarse to fine human face detection in a dynamic visual scene

OPEN ACCESS

Joan Liu-Shuang; Genevieve Quek; Valérie **Goffaux**; Bruno Rossion

Journal of Vision. 2017; 17(10):267. <https://doi.org/10.1167/17.10.267>

Vision Sciences Society Annual Meeting Abstract September 2015

Crowding Is Not Holistic for Faces: Low-Level Similarity Matters FREE

Alexandra Kalpadakis-Smith; Valérie **Goffaux**; John Greenwood

Journal of Vision. 2015; 15(12):551. <https://doi.org/10.1167/15.12.551>

Vision Sciences Society Annual Meeting Abstract September 2015

Three-month-old infants' sensitivity to horizontal information within faces FREE

Adelaide de Heering; Nicolas Dollion; Ornella Godard; Valerie **Goffaux**; Jean-Yves Baudouin

Journal of Vision. 2015; 15(12):794. <https://doi.org/10.1167/15.12.794>

Vision Sciences Society Annual Meeting Abstract September 2015

Horizontal tuning of face-specific processing from childhood to elderly adulthood FREE

Valerie **Goffaux**; Aude Poncin; Christine Schiltz

Journal of Vision. 2015; 15(12):1189. <https://doi.org/10.1167/15.12.1189>

Vision Sciences Society Annual Meeting Abstract July 2013

Contribution of cardinal orientations to the "Stare-in-the-crowd" effect FREE

Valerie **Goffaux**; Sanae Okamoto-Barth

Journal of Vision. 2013; 13(9):405. <https://doi.org/10.1167/13.9.405>

Vision Sciences Society Annual Meeting Abstract August 2012

Orientation tuning for faces in the Fusiform Face Area and Primary Visual Cortex FREEValerie **Goffaux**; Felix Duecker; Christine Schiltz; Rainer Goebel*Journal of Vision*. 2012; 12(9):27. <https://doi.org/10.1167/12.9.27>

Vision Sciences Society Annual Meeting Abstract September 2011

Contribution of SF and Orientation to upright and inverted face perception FREEValerie **Goffaux**; Jaap vanZon; Dietmar Hestermann; Christine Schiltz*Journal of Vision*. 2011; 11(11):611. <https://doi.org/10.1167/11.11.611>

Vision Sciences Society Annual Meeting Abstract September 2011

Scrambling horizontal face structure: Behavioral and electrophysiological evidence for a tuning of visual face processing to horizontal information FREECorentin Jacques; Christine Schiltz; Kevin Collet; Sanne ten Oever; Valerie **Goffaux***Journal of Vision*. 2011; 11(11):656. <https://doi.org/10.1167/11.11.656>

Vision Sciences Society Annual Meeting Abstract August 2010

Attentional shifts due to irrelevant numerical cues: Behavioral investigation of a lateralized target discrimination paradigm FREEChristine Schiltz; Giulia Dormal; Romain Martin; Valerie **Goffaux***Journal of Vision*. 2010; 10(7):235. <https://doi.org/10.1167/10.7.235>

Vision Sciences Society Annual Meeting Abstract August 2010

Right middle fusiform gyrus processes facial features interactively: evidence from a balanced congruency design FREEValerie **Goffaux**; Christine Schiltz; Rainer Goebel*Journal of Vision*. 2010; 10(7):668. <https://doi.org/10.1167/10.7.668>

Vision Sciences Society Annual Meeting Abstract August 2009

Temporal dynamics of face spatial frequency processing: an fMRI masking experiment FREE

Valerie **Goffaux**; Judith Peters; Christine Schiltz; Bernadette Jansma; Rainer Goebel

Journal of Vision. 2009; 9(8):547. <https://doi.org/10.1167/9.8.547>

Vision Sciences Society Annual Meeting Abstract May 2008

Face discrimination at various phase orientations FREE

Valerie **Goffaux**

Journal of Vision. 2008; 8(6):151. <https://doi.org/10.1167/8.6.151>

Vision Sciences Society Annual Meeting Abstract June 2007

Investigation of featural versus configural processing of faces in the middle fusiform gyrus FREE

Valerie **Goffaux**; Bettina Sorger; Christine Schiltz; Rainer Goebel; Bruno Rossion

Journal of Vision. 2007; 7(9):625. <https://doi.org/10.1167/7.9.625>

Vision Sciences Society Annual Meeting Abstract June 2006

Face inversion disproportionately impairs the perception of vertical but not horizontal relations between features FREE

Valerie **Goffaux**; Bruno Rossion

Journal of Vision. 2006; 6(6):272. <https://doi.org/10.1167/6.6.272>

Vision Sciences Society Annual Meeting Abstract September 2005

Faces are “spatial”- Holistic perception of faces is subtended by low spatial frequencies FREE

Valerie **Goffaux**; Bruno Rossion

Journal of Vision. 2005; 5(8):540. <https://doi.org/10.1167/5.8.540>

Vision Sciences Society Annual Meeting Abstract August 2004

Diagnostic Colors Contribute to the Early Stages of Scene Categorization: Behavioral and Neurophysiological Evidence FREE

Valerie **Goffaux**; Corentin Jacques; Andre Mouraux; Aude Oliva; Philippe G. Schyns; Bruno Rossion

Journal of Vision. 2004; 4(8):873. <https://doi.org/10.1167/4.8.873>

Vision Sciences Society Annual Meeting Abstract October 2003

Superstitious perceptions of a face revealed by non phase-locked gamma oscillations in the human brain FREE

Valerie **Goffaux**; Corentin Jacques; Andre Mouraux; Frederic Gosselin; Philippe G Schyns

Journal of Vision. 2003; 3(9):94. <https://doi.org/10.1167/3.9.94>

Vision Sciences Society Annual Meeting Abstract November 2002

ERP evidence of task modulations on early perceptual processing of faces at different spatial scales FREE

Valerie **Goffaux**; Boutheina Jemel; Corentin Jacques; Philippe G. Schyns
